Editor's Notes : - THE VALUE OF LAND RECORDS

I have often talked and written on the value of land records. My interest in them is based on the fact that I have solved more family research problems through the use of land records than from any other single source.

The following deed received by one of our members, Mrs. Evelyn Briggs, can demonstrate this fact better than I could hope to.

Ripley County Recorder's Office, Versailles, Indiana
Deed Record Book W, Page 347

This indenture made this Eleventh day of September in the year of our Lord, Eighteen hundred and forty-eight, between Edward Gray of Ripley County and State of Indiana, of the one part, and John M. Gray, Beverly C. Gray, Edward Gray, Elisha Gray, Joseph W. Gray, James J. Gray, Hezekiah S. Gray, Frances E. Gray, the sons and daughters of the said Edward Gray of the County and State aforesaid, of the other part, witnesseth that the said Edward Gray, as well as for and in consideration of the natural love and affection, which he, the said Edward Gray, bears to the said John, Beverly, Edward, Elisha, Joseph, James, Hezekiah, Frances, has given, granted, conveyed and confirmed, and does by these presents give, grant, convey and confirm to the said John, Beverly, Edward, Elisha, Joseph, James, Hezekiah, Frances, their heirs and assigns forever, all those tracts or parcels of land, lying and being in the County aforesaid, bounded and described as follows: South side of the North West quarter of Section Thirty six, Township Eight North of Range Eleven East, the North West fourth of the North East quarter of Section thirty five of Township No. Eight North of Range Eleven East. South East fourth of North East quarter of Section thirty five, Township Eight North of Range Eleven East, containing in all one hundred and fifty acres, be the same more or less, together with all the rights, privileges and appurtenances thereunto belonging, and the reversions, reminders and profits thereof and all the Estate, right, title, interest and claims of him the said

Editor's Notes (continued)

Edward Gray, in and to the same, to have and to hold the premises aforesaid with all their appurtenances, to the sole and only proper use, benefit and behoof of them the said John M. Gray, Beverly C. Gray, Edward Gray, Elisha Gray, Joseph W. Gray, James J. Gray, Hezekiah S. Gray, and claims of the said Edward Gray, or his heirs, or of any other person or persons claiming from or under him or them, or any other person forever. In witness thereof, the said Edward Gray has hereunto set his hand and Signed, sealed, and delivered in the presence of James Myers and F.I. Waldo Edward Gray (seal)

Later records in the Deed Books of Ripley County, Indiana, show the release of this property of Elisha Gray and Beverly C. Gray, both of Sutter County, California.

+++++ If any of you have tried to contact an individual who has submitted information found in the LDS Records of the IGI or Family Registry, only to find the address for the submitter is no longer valid, you may be able to contact the person, if the person is a member of the Church of Jesus Christ of Latter-Day Saints, by requesting a "Member Contact" form from a LDS Branch Librarian. This form is to be filled out and mailed to the address given in Salt Lake. They will attempt to contact their member for you.

EARLY YUBA COUNTY "ORIGINAL MARRIAGE CERTIFICATES"

This is a continuation of a list of the "original" marriage certificates in the possession of this genealogical society. These certificates may be obtained by any descendant sending a SASE, plus \$2.00 to the Society, and requesting the certificate. The certificates were left unclaimed at the Yuba County Courthouse, and covered the period from the 1930's to the 1850's. This concludes our list down through the 1870's, and the next issue of our quarterly should begin a listing of the 1860's. Listed alphabetically by groom's surname. Consider all spellings.

MIDDLE NAMES

(From an article in Harper's Magazine, early 1900's)

Middle names, hard as it is to credit in this generation, were once illegal. The old English law was very definite as to the naming of children and, according to Coke, "a man cannot have two names of baptism." "It is requisite," this law goes on, "that the purchaser be named by the name of his baptism and his surname, and that special heed be taken to the name of baptism."

Royal personages have always been allowed to have more than one given name, but as late as 1600, it is said, there were only four persons in all England who had two given names. In 1620 the Mayflower sailed for America, and there was not a man or woman upon it who had a middle name.

Even a century and a half ago double names were very uncommon. The English used to dodge the law at times by ingeniously compounding names. Thus an old parish register in England may occasionally show such combinations such as Fannasabilia, which is Fanny and Sibyl joined together, and Annameriar, made up of Anna and Maria. Maris is one of the earliest middle names of record for boys. It was given in honor of the Virgin Mary. As much as they dared, beginning along in the eighteenth century, parents evaded the "one name law."

But even as late as 100 years ago, custom was against the middle name. If the names of the signers of the Declaration of Independence be looked over, it will be found that only three of them had middle names. The first five presidents of the United States had only one name each.--George Washington, John Adams, Thomas Jefferson, James Madison and James Monroe. Before Grant, eighteenth of the line, there were only three double named executives--John Quincy Adams, William Henry Harrison, and James Knox Polk.

When middle names got going and became the fashion, the law having dropped into disuse, parents went to work combining names for their offspring enthusiastically. One custom was done away with in England in consequence of this, the plan of naming the eldest son for the estate, particularly where he succeeds to that estate through his mother. This old practice is still followed to some extent in this country by the mother's maiden name being given to the eldest son, and this identifies the boy when he reaches manhood, and so has some purpose.
