PREFACE

When transcribing a handwritten record that is 136 yrs. old, one has to go slowly and read carefully. Joseph Kearns has contributed a great service by laboriously copying the 1848 Personal Property Tax List. Other members of the Committee have proof-read the material, checking against the original book. Realizing there will be errors, all have tried to reproduce the data exactly as it was entered by the Assessor.

Thomas A. Scott, the 1848 Assessor, developed his project township by township, recording each householder as he came to a residence. Necessarily his lists were not alphabetical by surnames. Using today's computer, we have alphabetized by surnames each of Mr. Scott's township lists. In addition, the Every Name Index includes all the names shown in the original manuscript.

Township names have been slightly altered since 1848 as shown on the two maps that appear on Pages v and vi. At the top of each page we name the present Township identification and below it is the identification shown in the 1848 record.

On Page 41 is a facsimile of the Assessor's work and the categories of the property which were evaluated. We only copied the total amount assessed to the householder. If the reader is interested in a break-down of this amount, he will have to look at the original document held by the County Clerk in the Government Center at Geneva, Illinois.

Please understand that a zero after a person's name DOES NOT indicate that the person was penniless. It signifies that the Assessor listed the person's name but DID NOT write a sum after the name. Perhaps Mr. Scott could not find the householder. If there is a comment, i.e. "gone" or "died", these words actually appear in the manuscript.

We would be remiss if we did not express our appreciation to William and Joan Klinkey for programming and processing all this material on their computer. A special thank you to the persons and societies who have given us permission to reproduce their pictures.

Sept. 1984

BACKGROUND

Kane County was established by the Illinois legislature on January 16, 1836. Some pioneers had arrived along the Fox River as early as 1833, but it was June 4, 1836 before County officials were elected for the first time.

At inception, Kane County included the present County of DeKalb and the three northern townships of Kendall County. Then on February 19, 1841, DeKalb and Kendall were established.

The United States Land Survey of Kane County was begun in 1837 and finished in 1840. It mapped the Congressional Townships so that land titles could be properly identified. By 1841 Kane County had fourteen Congressional Townships each six miles by six miles, measured northward from the base line at Centralia, Illinois, and eastward from the Third Principal Meridian. The map of Kane County on Page v is duplicated from the 1848 Tax Book and shows the original names of the Townships:

<u>West Tier</u>	<u>Center Tier</u>	<u>East Tier</u>
Deerfield		Dundee
Burlington	Washington	Elgin
Franklin	Fairfield	St. Charles
Royalton	Blackberry	Geneva
L & B Rock	Sugar Grove	Fox River

In the body of the 1848 Tax Book
L & B Rock is identified as Rock Creek
Township and Fox River as Aurora.

Subsequently there were changes made in the names of the Townships along with changes in Township lines and the addition of Batavia and Jackson, the latter now known as Rutland. (See Page vi.)

By 1848 urban areas had been settled on both sides of the Fox River in Aurora, Batavia, Geneva, St. Charles and Elgin. In that year the residents of Illinois voted to establish Township Municipal Governments in the Congressional Townships. Accordingly Thomas A. Scott was named Tax Assessor and Treasurer of Kane County whose duty it was to assess and collect all taxes for the year 1848. His records show that he completed the assessment of personal properties in all Townships as of September 1, 1848 and established a total valuation of Personal Property of \$610,225.00. We have duplicated his affidavit on Page iv.

BACKGROUND (continued)

On Page 41 is a copy of one page from Mr. Scott's 1848 Record. A careful study of the handwriting leads one to the conclusion that he was working from a previous list of folks who had been assessed for their personal property. However, such an earlier document has not been found.

In some cases, the Assessor wrote after a name, "Gone". In other instances he showed no dollar value after a person's name and we presume Mr. Scott could not locate the individual and so could not assess his belongings. Thus this 1848 Tax Record contains the names of settlers who were in the County prior to 1848. Perhaps they had moved before the Assessor arrived. At least no assessment was made against that particular individual.

For the purposes of his project, Mr. Scott headed each page of his record with seven columns or categories according to the then current Illinois law. These are shown on Page 41 and are as follows:

- Horses and Mules
- Cattle
- Hogs and Sheep
- Waggon (sic) & Carriages
- Money & Mrtgs (mortgages)
- All other Property (i.e. watches, clocks, etc.
but NOT real estate)
- Total Value

I wish to express my appreciation to Mr. David L. Pierce, Clerk of Kane County in 1984, who is custodian of this 1848 Tax Record which is shelved at the Government Center, 719 Batavia Avenue, Geneva, Illinois 60134. Every courtesy was shown as I transcribed from the original document.

It is hoped that at some future time the 1848 Real Estate Assessment book can also be copied. It shows Mr. Scott's assessed valuation of Kane County real estate in 1848 to be \$859,614.15.
