PREFACE

This index is intended to be used as a tool for finding marriages that took place in Cherokee County, Kansas the first twenty years of its existence - 1867-1886. Our index includes all marriages and licenses recorded in the office of the Probate Judge in Columbus for those years.

Information given in this index includes name and age (if given) of person; name and age (if given) of their spouse; date the marriage took place; and book and page number where the record can be found in the original books. Each marriage is listed twice - once with the bride first and once with the groom first. Occasionally a license was either not used and the couple did not marry, or the couple did marry and the official performing the ceremony failed to return the completed license to the Probate Judge's office. In those cases, the date given is noted with an "*" and indicates the date the license was issued.

Some of the writing was almost unreadable. In those instances, we tried to make the most reasonable spelling from the scribbling. In using our index, be sure to check all possible variant spellings. Sometimes a name was spelled two different ways on the license. Also, remember that officials filling out these records often did not obtain correct spellings of the individuals. Many times it was impossible to be certain of all the letters. Examples that were hard to distinguish were: a and o, u and n, r and s, S and L, e and undotted i, and re and n on the end of a name. We copied what we thought the record said, but may have been incorrect. We are sorry for any inconvenience this may cause and would appreciate learning of the correct spelling.

We would like to thank the many people who have helped us prepare this volume. Grace Loyd, Clione Bieber, Dorothy Fanoele, Jason and Sara Kelley and other Society members who filed cards. Without all their help, we could not have completed this volume.
