INDEX, THE EUREKA MESSENGER
January 19, 1950 – May 8, 1952
Eureka, Greenwood County, Kansas

INTRODUCTION

The Greenwood County, Kansas Historical Society Museum, 120 W 4th Street, Eureka, Kansas 67045 has one reel of microfilm containing the images of this newspaper for this time period. Published on Tuesdays, usually in eight pages, seven columns per page, by Burt Doze until he sold the paper in February, 1951 to Malcolm Higgins and Leigh G. Delay, who kept the pattern.

Each available page was SCANNED specifically for notes of births, marriages, deaths and items felt by this compiler to have substantial interest for researchers of history and genealogy. Many items are never indexed—who is visiting who, who is attending and active in many organizations, etc. In this reel, items of military notes were generally included.

Each item contains 4 parts

Subject note about page/column numbers issue date

Pages are not numbered, you just have to count.

Each entry was hand copied, then typed into a computer based program, alphabetized, then printed. Proof reading was not done and there may be some errors (sorry), but if item is not found as indicated, check column, page, issue before or after, it is there!
