INDEX, THE EUREKA MESSENGER  
October 9, 1947—January 12, 1950  
Eureka, Greenwood County, Kansas

INTRODUCTION

The Greenwood County Historical Society Museum, 120 W 4<sup>th</sup> Street, Eureka, KS 67045 has one reel of microfilm containing the images of this newspaper for this time period.

The paper was published weekly by Burt Doze on Thursday's in a variable 8-12 pages, 7 columns per page, but pages are not numbered.

Each available page was SCANNED specifically for notes of births, marriages, deaths and items believed to be helpful to history and genealogy researchers. Many items are just who is visiting who or attending meetings, etc. and were not indexed.

Each indexed item was hand copied, then typed into a four-column computer data-base program—Subject / note about / page-column number / issue date. Proof reading was not done so there may be some errors—sorry ! If item is not found as indicated, check the column, page, issue before or after—it is there!
