Introduction

The Greenwood County Historical Society Museum, 120 4th Street, Eureka, Kansas 67045-1445 has one reel of microfilm containing the images of this newspaper for this time period.

Paper was published weekly on Friday by Fred Gardner in a four-page, seven columns per page format (with occasional inserts), the local news being on pages one and four. Each issue was SCANNED specifically for notes of births, marriages and deaths, but other items were sometimes added for benefit of local history and genealogy researchers. Items being used should be looked up, for the index only indicates the subject is there—not the details.

Each entry consists of four parts:

Subject reason for being page/column numbers issue date

The terms, died, obituary and biographical obituary indicate the amount of substance from “least” to “most”.

Proof reading WAS NOT DONE. If an item is not found as indicated look at column, page or issue before or after—it is there!

Index was prepared by Robert A. Hodge, 1237 Trail Ridge Road, Emporia, Kansas, 1237 Trail Ridge Road, Emporia, KS 66801-6139, September, 2008
