Introduction

The Greenwood County Historical Society Museum, 120 W 4th street, Eureka, Kansas 67045-1445 has one reel of microfilm containing the images of this newspaper for this time period.

Paper was published weekly on Friday by Fred Gardner in a four-page, seven column per page format (occasional inserts) with local news being on pages one and four. Each issue was SCANNED specifically for notes of births, marriages and deaths, but other items were sometimes added for benefit of local history and genealogical researchers. Items being used should be looked up and date differences are the result of different reports or determinations of date based on publication date.

Each entry consists of four parts:

Subject reason for being page / column numbers issue date
Proof reading was NOT done. If an item is not found as indicated, look at column, page or issue before or after—it is there.
