**Introduction**

The Greenwood County Historical Society Museum, 120 W. 4<sup>th</sup> Street, Eureka, KS 67045-1445 has one reel of microfilm containing the images of this newspaper for this time period.

The paper was published weekly on Thursdays by Harry V. Baxter in a variable number of pages with six columns per page.

The images were **SCANNED** specifically for notices of births, marriages and deaths, but other items deemed by this compiler to have some “substance” for genealogists and local historians were often included.

Note, page 1 usually has a column devoted to the names, development and production of the large number of oil wells developing in the area—these not indexed, but of value to an historian of the oil industry. Also during the school year, one page nearly each week was devoted to school news, listing activities and participants. These were not generally indexed.

The indexed items were first hand-copied, then typed into a computer database program for alphabetizing and printing. Each item should consist of four parts

Name/event    reason for being    page/column number    issue date

As the reader image had to be moved about six times per page, and proof reading was not done, errors may have been made, so if an item is not found where indicated, THINK, and try column, page or issue before or after—it is there somewhere.

For death notices, the terms “died”, “obituary” and “biographical obituary” indicate the amount of information provided from “least” to “most.”

Questions regarding the index may be addressed to the Greenwood County Historical Society Museum, 120 W.4<sup>th</sup> Street, Eureka, Kansas, 67045-1445 or to the compiler

**October 28, 1926 – May 30, 1929**

**Introduction**

The Greenwood County Historical Society Museum, 120 W. 4<sup>th</sup> Street, Eureka, KS 67045-1445 has one reel of microfilm containing the images of this newspaper for this time period.

The paper was published weekly on Thursdays by Harry V. Baxter in a variable number of pages with six columns per page.

The images were **SCANNED** specifically for notices of births, marriages and deaths, but other items deemed by this compiler to have some “substance” for genealogists and local historians were often included.

Note, page 1 usually has a column devoted to the names, development and production of the large number of oil wells developing in the area—these not indexed, but of value to an historian of the oil industry. Also during the school year, one page nearly each week was devoted to school news, listing activities and participants. These were not generally indexed.

The indexed items were first hand-copied, then typed into a computer database program for alphabetizing and printing. Each item should consist of four parts

Name/event    reason for being    page/column number    issue date

As the reader image had to moved about six times per page, and proof reading was not done, errors may have been made, so if an item is not found where indicated, THINK, and try column, page or issue before or after—it is there somewhere.

For death notices, the terms “died”, “obituary” and “biographical obituary” indicate the amount of information provided from “least” to “most.”

Questions regarding the index may be addressed to the Greenwood County County Historical Society Museum, 120 W.4<sup>th</sup> Street, Eureka, Kansas, 67045-1445 or to the compiler
