Clay County Inscriptions--
In D. A. R. Library
--In Washington, D. C.

Miss Edna McKinley, chairman of the genealogical records committee of the Alexander Doniphan chapter of the D. A. R. has recently received a letter from Mrs. Alexander J. Berger, national geneological records chairman, commending her for her work of the past year in securing the publication of 967 old Clay county tombstone inscriptions from 37 country graveyards.

Mrs. Berger said, "As soon as time will permit, I plan to mount the inscriptions and place them in a stiff back binder and also to prepare an index for the names appearing on the tombstones. This will then make it possible to place the records on the Missouri shelf of our National D. A. R. library, and I feel confident it will prove helpful to many desiring information on Clay county ancestors."

The graveyard records are published in the Tribune each week, and they have been gathered by Miss McKinley in numerous trips over the county. There are many additional graves that are not recorded, and the cooperation of those who know of cut-of-way family burying places will be appreciated, Miss McKinley said, since she hopes to make a complete list of all tombstone records in the county.

Miss McKinley has also collected marriage records of the county since the year 1822, and these are published each week in the Liberty Advance.

DAR Collects Data from Old Cemeteries, Begin Report Today

In pre-war days when it was possible to take leisurely automobile rides over the pleasant country roads of Clay county, almost forgotten cemeteries in rural church yards and sadly neglected family burial plots on pioneer farms offered fascinating opportunities to the research worker and the casual visitor alike to delve into the romances and tribulations of generations long passed. Those interested in genealogical research found in these burial ground authentic data which enabled them to fill the gaps in family histories.

Years ago, the Alexander Doniphan Chapter, Daughters of the American Revolution began a systematic effort to collect gravestone records with the idea in mind of having them published later. Miss Edna McKinley, chapter historian, with diligence has sought out the ancient graves of the pioneers, torn away the tangle of vines and underbrush, exposed crumbling monuments and faithfully copied names, dates and epitaphs.

While her work and that of other members of Alexander Doniphan Chapter is not complete, sufficient records have been copied to justify starting publication, which is being done through the co-operation of the Liberty Tribune.

In these later days such records have assumed a practical aspect. Now it is required that every man or woman who works in many fields of activity shall be able to prove that he or she is an American citizen. Many turn to these not-to-be-disputed records on stones in country graveyards to authenticate their claims to American citizenship.

The DAR recognizes the valuable assistance rendered in this project by Edgar Archer and Mrs. John Earls, whose interest has led them to visit many of Clay county's neglected and out of the way burial plots and to copy the records carved in stone.

To make the work more valuable through its completeness, others are invited to co-operate with the DAR by reporting the location of isolated graves and by sending in copies of records to Miss Edna McKinley, Liberty.

Also one grave with a heavy stone "Pruett" the names and dates are not now able for anyone to read.
