The 1860 census for Dade County Missouri counted 1159 families. The entire county is numbered from 1 to 1143; however sixteen numbers were duplicated. These are 146, 147 and 148; and 233-245. See page 16 of this listing for a footnote concerning this error.

This listing is prepared by reading the microfilm of the old census records. If you have tried this yourself, you know they are a problem to decipher. It is much easier to find a particular name you want than it is to read every name on the reel. For instance, on family #906 our readers have not figured out whether to favor saying it's Delong or Delany. If you were searching for either one, you would probably recognize it from the original handwriting, but if we misread and then put that misreading into a typewritten copy, you may be misled. So we would encourage you, if you think a name should be here and isn't, read the microfilm for yourself. You may recognize something we couldn't.

We have endeavored to spell names as the census taker did-- you'll find Murphey and Mely. You'll find Wetzel and Whetzel; Mayberry and Maberry; Kirby and Kerby; Finloy, Findley and Findly. Look for all possible variations or misspellings of the name. It's hard to know if it was Lack or Lock, or Lang or Long.

The work of preparing manuscripts for publication by the Dade County Historical Society is all donated. All profits from publications go to the Historical Society treasury for projects of historical and recreational value they are sponsoring.

Those of us who are being privileged to share in these undertakings are paying a debt. As we have searched for information about our own families we have been aided by material which has been copied and published by others; and placed on library shelves to make it accessible. We are grateful for their work. We also enjoy working with these records of a County and a people we love.

We publish each new volume with the hope that it will be a real help to many people.
