The marriage records contained herein were copied from the Volume A Marriage Record Book in the Office of the County Recorder at the Jasper County Missouri courthouse by Ruth A. Sutton in January and February, 1969. The page numbers which appear to the extreme left side of each page refers to the page on which it is written in the original book. The index in the back of this book refers to our page numbers.

The job of copying these records has been a difficult one, partly because of the age of the records, but mainly because the records were entered by the various Justices of the Peace, or Ministers, who performed these ceremonies. This means the handwriting differs with each marriage recorded, thus making it very difficult to become used to reading any one person's handwriting.

As this was sparsely settled country and a newly formed county, education up to this time had been a very limited thing to many. Hence, the marriages recorded in Volumes A, B and C contain so many misspelled words and names and much of it is such poor handwriting that it is impossible to determine accurately the way each person chose to spell his name. We have tried to copy the names and dates as we saw them. We hope you will bear all this in mind as you search through this book. Please check the various ways your name could be spelled.

We present this work to you and hope you will approve our labors.
