A million candles have burned  
themselves out. Still I read on.  
—Montresor.

## INTRODUCTION

This book contains the names of the first people who bought land in Jasper County, Missouri when the government offered it for sale for settlement.

This basic source was copied from a large ledger at the office of the County Recorder in the courthouse in Carthage, Missouri. From it came the particular data of: legal description (Section-Township-Range), date of land parcels offered, name and date of purchase. In some cases a pre-date is given which shows earlier settlement of land. The page number given within this record is of the ledger in the courthouse. The land agent had to cope with a variety of accents therefore most of the names were written "as heard". In some cases we have added the name to show what we think or know it to have been.

Further reference value has been added to this work by including maps showing each township, date of formation, and locations of all known (to date) cemeteries. As near as possible the names and locations of schools, churches, and post offices have been added, most of which are now gone. Numerous locale or community names have been shown in the correct general area.

We give our blessings and thanks to the many people who took the time to think back and recall the information we needed to make this a one-of-a-kind historical reference.

We will admit to one failing in this work, and that is being unable to show non-residents the beauty of this part of America, and to have you meet the strong, good people that are the foundation of this county.

We strived for accuracy, therefore any errors will be honest and we hope few.

We want to express special thanks to the following people who helped make this publication possible: Benita Shields, Marie Knorpp, Eleanor Coffield, and the Jasper County Historical Society for their financial support.
