

(From Death Register on file in Court House at Paris, Missouri.)
 Death Records were kept in all Missouri Counties beginning in 1883; however, after a few years, many deaths were not reported, and finally, the register was discontinued. We have listed here only deaths for persons old enough to appear in the 1880 census. Sometimes the person filing the record could not make a complete report. The names were recorded alphabetically and will not appear in the surname index of marriages.
