Among the plans of the Federal Works Progress Administration to preserve and make more easily available selected classes of historical records was one to prepare typescript copies of all wills filed prior to the year 1869 in the various counties of South Carolina. In due course this useful work was completed. In every county in which wills of this period were found, two copies, and in one case (Charleston County) three copies, were made. One set of these copies was then deposited in the county office controlling the originals, and another set was sent to the South Caroliniana Library of the University of South Carolina, which thereby became the custodian of a complete file. The extra set prepared in Charleston was deposited in the Charleston Free Library.

In 1946 Mrs. Martha Lou Houston published the *Indexes to the County Wills of South Carolina* containing indexes prepared by the South Caroliniana Library for each county except Charleston. The present volume, therefore, completes the series of indexes to the WPA transcripts of South Carolina wills.

The importance of Charleston as a center of probate records is well known. The only probate court (court of ordinary) in South Carolina was located there until 1782 when a beginning was made of carrying out a provision in the Constitution of 1778 requiring similar courts in other judicial districts. It may be said, then, that, with a few exceptions, all South Carolina recorded wills prior to 1782 are covered by the following index.

The preparation of the index to Charleston wills was under the direction of the reference department of the Charleston Free Library. The actual work of indexing was done by NYA students of the College of Charleston, and the typing, as it now appears in photolith form, was done by WPA workers assigned to the same institution.

EXPLANATION OF METHOD

THE LONG S The long s has been copied interchangeably as f and s by typists. A double lower case letter has been treated in the same way. No attempt has been made to correct spellings.

The information in the index appears in columns as follows:

DOCUMENTS OTHER THAN WILLS

Form of document has been indicated when other than a will as: memorandum, order, substitution of trustee, etc. These have not been noted when they appear in addition to a will under the same name. Duplicates of documents have been noted after page number.
