This index was taken from the microfilm of the marriage records at the Leavenworth County Courthouse that was done in the 1980s by the LDS Church. This film was originally the property of the Leavenworth County Genealogical Society (now disbanded) and is currently located at the Leavenworth Public Library. All efforts have been made to decipher these records from the microfilm. When there was a question the original license book was checked. These books are not readily accessible to the public any longer due to their fragile condition. If there was still a question of spelling there is a (?) question mark next to the portion of name that was in question. Each entry contains the groom's name, bride's name, date of license, marriage book volume (E), page number and number of LDS film (FHL)/LCGS number (number assigned by Leavenworth County Genealogical Society).

Grooms Index	pages 1-38
