FOREWORD

Volume Three of the SHAWNEE COUNTY, KANSAS MARRIAGE RECORDS, completes the project of checking, microfilming and indexing the marriage records from 1856 to May 1, 1913, when State Registration began in Kansas for marriage records.

These books were completed and published with the permission of the Third Judicial District Court for the State of Kansas and the continued assistance of the Court Administrator, Ms. Kay Falley.

Because this is an INDEX to the microfilmed marriage licenses, only the name and date of marriage with the reel and frame number are included. If you find a name of interest, you may want to see the microfilmed copy of the license which could provide more information. After the bride's name there is the date - month, day and year, then for example, you will find C#8 Seq #595, meaning that the marriage can be located on Roll #8 (C#8) and Seq (Frame) #595. To see this record, you would ask for Roll #8 and search until you find Frame #595 or the license you were searching for in the records, of the probate court.

Some of the earliest licenses were only scraps of paper, written in pencil. Not ALL, but many of the later licenses have age, name, residence and name of parent if the person was under age, the name of the clergyman or judge who performed the ceremony and where the marriage took place. Often a license was obtained in this county and the marriage occurred in another county.

The licenses were microfilmed in chronological order by date issued; the date in the book is the date of marriage since in some instances there were several months between the date issued and the date of marriage. Some of the licenses are not completely filled out - only the application, but on the back the date the licenses were issued and filed are both dated with the same date as the application. Usually the license, that was not used has a notation across the face of the license, stating that it was not used. On one there is the note that the bride died before she was married.

There are two parts to the book: the first is the marriages and index to the microfilm. The second part of the book is the Bride's Index which reads across the page alphabetically and refers to page and line number in the Groom's index. The asterisk (*) is used to denote a variant spelling or an entirely different name. The writing was difficult to read - is it an A or O, E or I, M or W, U or N?? C-1 is Roll/Reel One and Sequence (Seq.) #10 is Frame #10.

In completing this project, four licenses that should have been in the first volume were found. We have include an "ERRATA" page with this book. We are sorry for this mistake.

Due to the historical value and limited number of copies that were printed, we suggest that when you no longer have a need of this book, please do not throw it away, but offer your copy to your public library or return it to the Topeka Genealogical Society or the Court. Thank you.

Volume One of the SHAWNEE COUNTY, KANSAS MARRIAGE RECORDS, completes the project of checking, microfilming and indexing the marriage records from 1856 to May 1, 1913, when State Registration began in Kansas for marriage records. These books were compiled and published with the permission of the Third Judicial District Court for the State of Kansas, under the continued assistance of the Court Administrator, Mr. Jay Falley.

ACKNOWLEDGMENTS

Because this is an index to the microfilmed marriage licenses, only the name and date of marriage with the reel and frame number are included. If you find a name of interest, you may want to see the microfilmed copy of the license which could provide more information. The date - month, day and year, that the marriage can be located in the records, you would ask for Hall 35 on the records. The license you were searching for in the records.

The Third Judicial District Court for the State of Kansas, especially recognizes Katy Matthews, who served as coordinator for this project. Without her assistance and the other members of The Topeka Genealogical Society, this book would not have been published.

Members of The Topeka Genealogical Society who have worked on this project were:

- Margaret Smith; Esther Schultz; Shirley O'Toole; Jill Herzog; Marilyn and Lester Damme; Dorothy Robinson, Jo Spatz; Carolyn Taylor; Iona Spencer and Katy Matthews.

The license was not filed with the same date as the application. Usually the license that was not used has a notation across the face of the license, stating that it was not used. In one there is the note that the bride died before she was married.

There are two parts to the book: the first is the marriage and index to the microfilm. The second part of the book is the bride's index which reads across the page alphabetically and refers to page and line number in the groom's index. The asterisk (*) is used to denote a variant spelling or an entirely different name. The writing was difficult to read - is it an A or G, E or I, M or W, U or H? C-1 is Hall/Reel One and Sequence (2nd) 310 is frame 310.

In compiling this project, our licenses that should have been in the first volume were found. We have included an "ERRATA" page with this book. We are sorry for this mistake.

Due to the historical value and limited number of copies that were printed, we suggest that when you no longer have a need of this book, please do not throw it away, but offer your copy to your public library or return it to the Topeka Genealogical Society or the Court. Thank you!
