INTRODUCTION TO INDEX

Every name is indexed with the exception of the name heading each packet found in the Probate Judge's office files, which are listed alphabetically, so not included in this index.

Check all possible spellings as names may be spelled phonetically, misspelled because of illegibility, and human errors. There were quite a few people copying the original material, as well as the two different typists copying from their handwriting. Check any time you recognize a surname which might be yours as names might have been omitted, and initials might have been recorded wrong but it was thought not worthwhile to show them as corrections. WARNING--Also refer to the Errata which follows the main index.

The original indexing was done by Phyllis Travis and Mary James, Independence, Kansas members, without whose help this might never have been done. Mrs. Travis became ill before she had a chance to check the cards on which the entries were made, so Flossie Scofield took over from there and checked the indexing but only after the mimeographing had been done, resulting in many additions and corrections.

INDEX

All names are included except those which are alphabetically arranged.
