Beneral Information and Special Advantages.

CENTRAL WESLEYAN COLLEGE

was founded in the year 1864 by the Methodist Episcopal Church, It is denominational, but not sectarian. All courses being taught in English, excepting the Theological and German, both English and German speaking students have equal advantages. Hundreds of young ladies and gentlemen of various denominations, both English and German, have availed themselves of the privileges here so liberally offered.

The Growth of the College during the thirty-seven years of its existence has been permanent and healthy. The number of patrons and friends has steadily increased, and the Lord is opening the hearts and purses to meet our growing wants. Our successful past can but give us a new impetus to increased zeal and faithfulness in the important work of imparting a Christian education.

AIM

The object of this institution is to provide for the liberal Christian education of the young men and women, who may be entrusted to its care and instruction, and to aid them in securing the best preparation for the different spheres and avocations of life. Recognizing the fact, that a large majority of those seeking a liberal culture, come from the laborer's home, from the farm, and the shop, we have reduced expenses as much as possible, so that the poorest youth need not be deprived of the benefits of a thorough education. No pains will be spared to develop the pure and noble qualities in their nature, while the intellect is being disciplined and enriched with knowledge. The college endeavors to continue the work of the Christian home, to develop the pupil under its care into cultured Christian manhood and womanhood.

We trust the blessing of God may continue to rest upon our labors to build up an institution which shall reflect credit upon the Church, the State, and the Home.

Andrew Eisenmayer.

LOCATION AND BUILDINGS.

The College is located at Warrenton, Mo., sixty miles west of St. Louis, on the Wabash Railway, which makes connection with all prominent and intermediate points, North, South, East and West.

The location is high and healthful, in a pleasant part of the State, on the dividing ridge, separating the Missouri and Mis-

sissippi rivers.

The College has a large, commodious three story building, which supplies rooms for Recitation, Museum, Laboratory, Library, and Literary Society purposes.

Kessler Hall contains the Chapel and Concert Hall, and the

Conservatory of Music.

Besides these two college buildings, the School has a Ladies' Home, a beautiful two story brick building; Eisenmayer Hall, a new commodious three story brick dormitory for gentlemen, and a large church edifice, for its use, for religious meetings and commencement exercises. Electric light and steam heat in all buildings.

The buildings are situated in a beautiful grove of maple and forest trees, and present a very attractive and home-like appearance.

The campus, containing 15 acres, affords ample room for play and exercise.

EXAMINATION.

At the close of each term there are written examinations, and at the close of the fourth term there is, in addition, a public oral examination in some branches.

STANDING.

A record of scholarship and deportment is kept by the Faculty.

The standing in studies is made up on the scale of one hundred from examinations and the daily class record, each being considered of equal weight.

Information concerning conduct and general progress will be sent to parents or guardians by request and when the Faculty deem

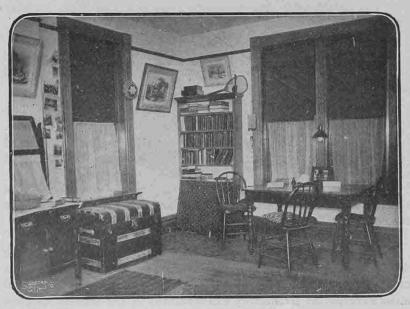

it necessary.

DEGREES.

Four years are contemplated as the time necessary to complete the Classical, Philosophical, Scientific, Literary, or Normal Course of study. All candidates must possess a good moral character, and must have passed satisfactory examinations in the studies of their respective courses.

Reception Hall and Reading Room in Eisenmayer Hall.

Students' Room in Eisenmayer Hall.

All candidates who obtain the required standard, will receive the degree of A. B., B. S., B. L., Ph. B., B. S. D., or B. D.

Candidates for the degree of A. M. or M. S. must apply to the

President four weeks before the close of the school.

Diplomas are also granted to students completing the Musical, Business, or German Course. The fee in each case is payable in advance.

RELIGIOUS EXERCISES.

Devotional exercises, consisting of Scripture reading, singing and prayer, are held daily, except Saturday and Sunday, in the

College Chapel, which all students are required to attend.

Students are also required to attend public worship in one of the churches once on Sunday, and are encouraged to attend Sunday School and weekly meetings of the Epworth League, of which a large number of our students are members. Daily prayer meetings are held by the students; attendance optional. Regular English Services in the M. E. and other churches.

SPECIAL FEATURE.

A characteristic feature of the College is the attention which is paid to German. Its facilities for giving the students not only a theoretical, but a practical mastery of the language are unequaled in any college in the West. German is used as a medium of instruction in the German classes. One of the literary societies of the College conducts its exercises entirely in the German language.

LIBRARY.

The library contains over 6000 volumes, to which there is a card catalogue of over 12,000 entries. There is also a manuscript

index to the magazines, making them accessible to all.

A recent step forward is the formation in the library of the "H. A. Geitz Department of American History." This is the result of the generosity of Dr. H. A. Geitz, of St. Louis, who annually contributes a handsome sum for its maintenance and enlargement. A few years will make this the most complete and valuable part of the library. To Dr. Geitz we express our sincere thanks.

READING ROOM.

A special room has been arranged for the Reading Room on the second floor of the College Building, where students have easy access to the current literature of the day. A large number of magazines and periodicals, including several dailies, is always on file.

Epworth League Cabinet.

LECTURES.

A Lecture Course is sustained by the College, giving the students opportunity to hear a good lecture by some prominent speaker each month of the school year free of charge.

LABORATORY.

The Laboratory has been greatly improved. It is now well furnished with apparatus necessary for the performance of experiments. Some fine additions were also made to the Physical Laboratory recently, so that the facilities for laboratory practice are good. A small fee is charged for the use of apparatus and chemicals.

MUSEUM.

The Museum was recently transferred from its small quarters into a large room especially fitted up with ample shelving and cases for this purpose, making it possible to display the specimens which we now have and to place new ones, as we receive them.

The Museum contains a large number of specimens, illustrating mineralogy, geology, zoology, and applied sciences. Skeletons and charts are provided for teaching physiology, and a herbarium for students in botany.

Friends of the school have contributed quite liberally to this department and it is hoped that they will continue to assist us in making our collection as complete as possible.

SOCIETIES.

Four Societies enable students to engage in various kinds of literary exercises, and to gain practically a familiarity with parliamentary law.

The Goethenian Society consists of young men, who, in all their

society exercises, use only the English language.

The Germania Verein, consisting also of young men, permits only German to be used within its hall.

The Garfield Society offers special advantages to younger stu-

dents. The English language is used.

The Union Temperance Society has held regular public meetings during the year. It keeps abreast of the temperance movements.

Philomathia Society gives the young ladies an opportunity to

gain literary and parliamentary skill.

The Oratorical Associations, both English and German, to which all regular collegiate students belong, who have been in attendance at College for one year, offer opportunity for and give

Coothonian Literary Society

special incentive to oratorical work in the friendly contests which are held annually. The State Prohibition Contest was held at Warrenton this year.

The societies are in a flourishing condition, and are considered

a very important addition to the ordinary school work,

ORATORICAL PRIZES.

Through the kindness of the Kriege Family and another friend of the school, four prizes are offered annually for the best oration in German and English, two of \$15 each; and two of \$10 each; the best English and the best German receiving each the first, and the next best in each receiving the second prizes. In consequence of these offers friendly contests are held annually, when specially appointed judges mark upon the thought, style, and delivery of the orations, and decide which are to receive the prizes.

Prizes were awarded this year as follows: To E. G. Froehlich, first price for English oration and to Chase Morsey, second prize. In the German Contest Christian C. Hohn won first honors, and W. R. Velte, second honors. In the Prohibition Contest J. E. Tuschhoff won the first and Bordon B. Kessler the second prize.

COLLEGE PUBLICATIONS.

The College Star is published monthly during the school year. It is the organ of the Faculty and the students.

Its object is to give information in regard to the condition of the College in general and in a measure, to represent the va-

rious departments.

It also contains original articles on education by competent writers and serves as a medium through which the ex-students exchange views and keep up their friendly relation with one another and their alma mater. Subscription price: fifty cents per Catalogues are published annually and sent gratis on application. BOOKS.

All text-books, as well as stationery, are kept in the College building and are sold to students below retail price.

PHYSICAL EXERCISES.

Our campus and grounds are ample and well adapted to outdoor sports and our students are encouraged to take the requisite amount of physical exercise so necessary to keep the body in vigorous health.

Tennis Court.

On Charrette.

Jumping, running, and turning exercises are indulged in freely. Base-ball, foot-ball and basket ball games are engaged in to a moderate degree. Croquet and Lawn Tennis grounds have been prepared near the college buildings. A Gymnasium outfit has been purchased and will be set up for use next year.

The surrounding country is romantic and affords restful outings for students, which are permitted under supervision of the Faculty.

The student who wants exercise in the way of work, can saw wood, do gardening, carpentering and secure other odd jobs,

Cafion Rock on Charrette.

which though not so pleasant as the athletic games, nevertheless help to give health to the body and cash to the needy purse.

In addition a class in Physical Culture has been organized for the young ladies. It meets three times a week and is proving quite popular and yielding excellent results. The "Self Expression and Health or the Americanized Delsarte Culture" is used as a basis for the work, which aims to undo bad, wasteful physical habits and establish healthful, graceful ones in their stead. Each day's work is carried on along three general lines, namely: 1. Relaxation exercises to free the body from all restriction; 2. Energ-

izing ones to invigorate and strengthen (much attention is given to correct breathing); 3. Harmonious ones to tranquilize the nerves. The class meets three time a week in Kessler Hall, where there is an abundance of air and light. Mrs. Prof. Vosholl, a former pupil of Mrs. E. M. Bishop, author of "Self Expression and Health has charge of the class.

GENERAL COUNSELS.

TO THOSE WHO HAVE DECIDED TO ATTEND OUR SCHOOL.

Arrange your plans to begin with a term, if possible. Come with the determination of giving yourself wholly to study. Expect to meet some trials, but prepare to meet them with courage and they will disappear. Endeavor to stand high in conduct and study and you will receive the encouragement of kind and faithful teachers. Endeavor to stay to the end of every term you attend.

WHAT A PUPIL SHOULD DO ON ARRIVING AT WARRENTON.

Ask for some college representative at the depot, who will assist you. If you should not meet any one from the college, leave your trunk, retain your check, go south two blocks and east four blocks to the college, enter the office of the President, first door to your right in main College Building, or call on Prof. Rinkel in Ladies' Home on opposite side of street, and you will be shown immediate attention.

SELF-HELP.

Students find opportunity to reduce their expenses by working part of their time.

Not a few students have "earned their way" through College here. Others succeed in working their way in part. Often students find opportunity to earn money during the summer. Competent and needy students sometimes discontinue their studies for a year or so, and teach and thus earn sufficient to finish their course.

The Faculty use their influence in securing positions temporarily or permanently for their students.

THANKS.—The earnest thanks of the Faculty are extended to all our patrons for their assistance and especially to those friends who kindly send in gifts to be used in defraying the expenses of worthy poor students, who are earning their way through school.

CONDITIONS OF ADMISSION.

Central Wesleyan College admits students of both sexes to all, its courses.

Candidates for admission should be at least fifteen years of age and of good moral character.

Pupils may be admitted to the classes of the Preparatory Department at all times; but applicants for admission to classes of advanced courses should enter at the opening of a term, or if possible, at the beginning of the year.

Grades will be accepted, provisionally, for work done in high schools, academies, and other colleges.

REGULATIONS.

In general, students are treated as self-respecting gentlemen and ladies, and will be held to the requirements and accorded the liberties of good society.

The following requirements are presented for the regulation of the conduct of the students. These rules however are not intended to cover the whole range of a students behavior, but are designed merely to indicate some things essential to the good order and success of the school.

Registration by a student will be regarded as a pledge on his part, to comply with the rules and regulations of the school.

- Students are required to matriculate before they are entitled to the privileges of the school.
- Tuition must be paid in advance per term. If a student is absent over two weeks at one time on account of sickness or for some other good reason, proper reduction will be made for the time of absence.
- 3. Students are required to be present at the morning chapel exercises and at every recitation, and to perform the assigned rhetorical work. (See Page 32.)
- 4. Study hours commence at 7.30 A. M. and at 1 P. M., and close at 12 o' clock M. and 4 P. M. Evening study hours extend from 7 o' clock to 9.30 P. M. During these study hours students are required to devote all time not employed in recitation to careful study, either in their rooms or in the study room in the college building.
- All students are expected to attend one service at some church on Sunday.
- 6. No student shall discontinue a study, except by permission of the President.
- Students of opposite sex are not permitted to room in the same building except by special permission of the Faculty.

- 8. Frequenting each other's room, lounging about town, and all unnecessary gallantry are prohibited.
- Card playing and drinking intoxicating liquor are prohibited. The use of tobacco on the college grounds is not permitted.
- 10. The use of profane, obscene or quarrelsome language by any student is prohibited.
- 11. No student matriculating in the institution is allowed to receive instruction outside of the college without special permission of the faculty.

Students are expected to observe the oral rules of the Faculty, made in harmony with these general regulations.

Courses of Study.

REMARKS ON PREPARATORY COURSES.

The courses are maintained with the two-fold design: 1st of affording opportunity for those who desire more thoroughly to acquaint themselves with the elementary branches; and 2nd, of furnishing a thorough and complete preparatory training to those students who design taking either of the regular college courses, but who are not sufficiently advanced to enter upon college work.

The lower, or General Preparatory Course, is arranged to meet the wants of students coming from our common schools, beginning with the branches taught there and continuing with the higher academic studies.

The higher, or College Preparatory Course, includes Latin, and Greek or German, as also mathematical and scientific studies, preparatory to entering the college courses, but these need not all be taken by students who do not desire to enter a college course, but wish to take select studies.

Classes in the more important elementary branches, such as Arithmetic, Grammar, Geography, United States History, are carried on at all times, thus affording opportunity for drill and review.

All persons in this department are subject to the same rules and regulations as those of the other departments and are equally ntitled to all privileges which the institution affords.

I. MATHEMATICS.

PROFESSOR FRICK AND MISS ZIMMERMANN.

A thorough knowledge of the principles of Arithmetic, Elementary Algebra to Quadratics and Geometry both plane and solid is required for entrance into the Freshman year of this course. Higher Algebra is studied during the Freshman year. Five periods per week during the entire year is required.

Five periods per week of the entire Sophomore year are devoted to Trigonometry (plane and spherical) and Surveying with Applications and field work with compass and transit.

During the first semester five periods per week of the Junior year are devoted to the study of Analytical Geometry, including plane loci, loci in space, and transformation of coordinates. Five periods per week of the entire Second Semester are applied to the study of the Differential and Integral Calculus.

II. NATURAL SCIENCE.

PROFESSOR EBELING AND PROFESSOR FRICK.

One semester's work, five periods per week, is required in both Physica Geography and Physiology, for entrance in the Freshman year. Zoology with laboratory practice is studied during the first semester of Freshman year. The remainder of the year is devoted to Botany. During the early part of the course, laboratory practice is devoted to study of seeds and germination and the drawing of plant structure. The latter part of the course is devoted to analysis of flowers, and collection, classification, and preservation of Plants. Our Museum collection of Animals and Herbarium are freely used.

Physics is studied during the entire Sophomore year 5 periods per week, with laboratory practice, two periods per week.

Chemistry is studied during the entire Junior year 5 periods per week, with laboratory practice, four periods per week.

Geology is studied the first half of Senior year. Laboratory practice consists in Field work and study and determination of fossils and minerals in which our Museum collections of Minerals and Fossils are freely used.

The second semester of the year is devoted to the study of Astronomy. During favorable evenings the constellations are studied and the planets, star-clusters, double stars, and nebula are viewed with a six-foot refracting telescope with five inch objective. The sun and moon are also studied with the telescope.

III. PHILOSOPHY AND ETHICS.

PROFESSOR ADDICKS.

- 1. Psychology.— a. Subject Matter and Method; Consciousness.— b. Knowledge: Elements of Knowledge, considered under General Sensation and Special Senses; Possession of Knowledge: Perception, Association, Attention, Retention: Stages of Knowledge: Perception, Memory, Imagination, Thinking, Intuition. c. Feeling: Kinds of Feeling: Sensation, Formal, Intellectual, Asthetic, Personal. d. Will: Impulses, Volition, Physical, Prudential and Moral control.
- HISTORY OF PHILOSOPHY.—The field of Ancient and Modern Philosophy is covered in three terms. Schwegler and Haven are used.

- 3. ETHICS.--Scope of Ethics, Relation to other Senses, Prologomena (Desire and Will, Motive and Intention, Character and Conduct); Theories of the Moral Standard, The Moral Life, (McKenzie and Paulsen.)
 - 4. THEISM .- Required for Seniors. (Fischer and Bowne.)

IV. LATIN.

PROFESSOR WELLEMEYER.

Freshmen Preparatory.—Collar & Daniel's first year Latin or Equivalent, followed by selected anecdotes, fables, letters, with exercises in writing of Latin throughout the year.

Junior Preparatory.—Selections from the commentaries of Cæsar equivalent in amount to 4 full Books, with at least two Orations of Cicero. Daily exercises in reading at sight, translation at hearing, and writing of Latin throughout the year.

Senior Preparatory.—Select Orations of Cicero, at least three, followed by Virgil's Aeneid six Books, or Selections equivalent. Reviews at hearing, written translations and comparative studies in English literature a feature of this year's work.

Freshmen.—Livy, Selections from Books I. and II. or XXI. and XXII. for rapid reading, special attention to rapid acquiring of thought from Latin page. Horace's Odes and Epodes with exercises in Prosody; emphasis on oral reading. Cicero de Senectute or de Amicitia completes this year's work.

Sophomore.—Tacitus Agricola and Germania or Selections from Annals, followed by Plautus, the Trinummi and Captivi. Rapid reading and interpretation of Authors read.

The aim of the whole course is the attainment of the ability to read with facility and enjoy the masterpieces of Latin Literature.

V. GREEK.

PROFESSOR WELLEMEYER.

Senior Preparatory.—White's First Greek Book, followed by the first book of Xenophon's Anabasis, with Exercises in Vocabulary based on comparison of roots.

Freshmen.—Anabasis continued, completing at least 4 books with exercises in writing of Greek, sight reading, translation at hearing and Reviews of Grammatical Forms and Syntax. In 2nd semester Homer's Iliad is read, at least 3 books or selections equivalent. Emphasis on Oral Reading and Enlarging vocabulary.

Sophomore.—Attic Oratory. — Selected Orations of Lysias read and interpreted in relation to their historical setting, during 1st semester. The Philippics of Demosthenes or The Oration de Corona with Selections of the Oration of Aeschines in the last semester, with exercises in writing of Greek on special points of Syntax throughout year.

Junior.—Plato's Apology and Crito, or Xen. Memorabilia during 1st semester. Introduction to Attic Tragedy through selected play of Sophocles or Euripides, in 2nd semester.

In Greek as in Latin the aim constantly held before the pupil is ability to read with ease and enjoyment the masterpieces of Greek Literature.

VI. BIBLE STUDY.

English Bible,—One year in all collegiate courses.—Essentials of Christianity,—Evidences of Revealed Religion.

For Theological Course see German catalogue.

VII. ECONOMICS.

PROFESSOR ADDICKS.

Practical Economics.—A course in Political Economy, for the study of economic problems of the day. Relation of state-help to self-help; labor unions, tariff, protection, industrial combinations. Money and banking.

Socialism .- History and principles of Social Science.

VIII. GERMAN LANGUAGE AND LITERATURE.

PROFESSOR RINKEL.

- 1. Exercises in translating and easy conversation.
- 2. Elementary course in modern German and conversation continued.
- German Märchen and Erzählungen. Conversation continued through the rest of the course. Herman and Dorothea.
- 4. Advanced German Grammar. Harris' Composition and Irving.
- Schiller's Maria Stuart, Goethe's Iphigenia, Shakespeare's Julius Caesar.
- 6. Rhetoric and Composition.
- History of German Literature. History of Germany. (Each course requires one year.)

IX. ENGLISH LANGUAGE AND LITERATURE.

PROFESSOR VOSHOLL.

- 1. In the Preparatory Department a thorough course is given in elementary and advanced Grammar, including the recognition of parts of speech, a drill in forms, the use of phases and clauses, the parsing of words, and the analysis of sentences. Written work is required to place pupils in complete possession of what they are taught, Some of the simpler classics are used to enforce grammatical principles. (2 years.)
- Elementary Rhetoric constantly illustrated by standard authors; composition, largely based on the required readings (one year).
- 3. Higher Rhetoric and Literature. Study of narration, description, exposition, argumentation, based on literary masterpieces. Composition work during the course, (one year).
- 4. History of Literature. Comprehensive study of standard English and American authors and the history of English Literature (one year).
 - 5. Rhetorical Exercises consisting of Essays, Theses, Orations (one year)
- 6. Elocution. Pronunciation and Emphasis, forms of voice, quality of voice, stress, force declamation and readings (one semester).

X. HISTORY.

PROFESSOR VOSHOLL AND PROFESSOR RINKEL,

The course in the Preparatory Department includes the history of the United States and of the State of Missouri, and a study of the state and general governments. Much use is made of the very abundant material in the Geitz' U. S. History Department in the library.

The college courses vary somewhat according to the needs and preferences of classes. The work begins with a general view of the ancient nations, especially Greece and Rome. Then there is a rapid survey of mediæval and modern history, followed by special courses on Germany, England, or the United States.

Normal Department.

Prof. HENRY VOSHOLL, Principal.

COURSE OF STUDY.

A special object of this institution being to educate teachers for our common and high schools as well as for academies and colleges, the Normal Course has been arranged according to the highest requirements of the State for Normal instruction. It has been arranged so as to contain all the common branches in the first two years, which fit students for teaching in our common schools, and to include all the more practical higher branches in the third and fourth years, which enable graduates from this course to instruct in high schools and academies. Students pursuing a normal course often wish to take others than strictly normal studies, such as music, languages or sciences, not taught in normal schools, preparatory to entering upon some other profession eventually. They find ample opportunity to take up these extra branches here in the college department proper, or in the Conservatory of Music.

PRACTICE TEACHING,

A most valuable feature of this department is the actual practice which students have in conducting classes in different grades. No other test will so satisfactorily show whether a young man or a young woman will be a good teacher. A student may understand theories and methods and be able to discuss the same and yet lack discipline and those other qualities which go to make a successful teacher. In this department he has opportunity to observe and test methods already studied. Care is taken to lead the pupil teacher to conduct his own classes, settle his own difficulties in discipline and instruction, meet the responsibility which would later come to him in his own school. The children are only a means to an end and in justice to them the teacher must realize that unless he is benefitting the children, he is not benefitting himself. The value of such instruction under competent instructors can not be over-estimated.

NORMAL COURSE.

The figures after the studies indicate the number of hours required per week

Normal Students have practice teaching for three terms in the Orphan School.

Composition, Declaiming, Literary Work and Vocal Music in every grade.

RHETORICAL WORK.

I. Senior Class.

Each member of the Senior Class will be required to prepare an oration of about one thousand words on assigned subjects the third term of the school year, to be delivered before the school in connection with the morning chapel exercises.

II. JUNIOR CLASS.

Required work: One thesis each the second and fourth terms, of about eight hundred words, by each member of the Junior Class on assigned subjects, to be read in connection with the morning chapel exercises. A like thesis will be required the third term of Juniors who do not participate in the literary work of the Junior Exhibition, which is under the supervision of the faculty.

III. SOPHOMORE AND FRESHMEN CLASSES.

Sophomores and Freshmen are required to deliver a declamation the second term, read an essay of six hundred words or deliver a declamation the third term, and read an essay of six hundred words the fourth term before the school in connection with the morning chapel exercises.

IV. WEEKLY ESSAYS.

All students, except the Seniors, are required to write an essay each week, character and length in each case to be decided by the grade of the student.

These rhetorical exercises prove very helpful to students, in giving them ability to express their thoughts on paper and freedom in public speech, both of which are among the necessary requirements of professional and commercial life to-day.

READING COURSE.

Few students have had an opportunity, before going to college, to form a taste for good reading. At college they may devote themselves so exclusively to their text-books that here, too, they fail to acquire that love for literature which is so essential to real culture. To partially meet this difficulty, a course of parallel reading is required.

For the next year the books are as follows:

SENIOR PREPARATORY.

First Term: Franklin's Autobiography.
Second Term: Uncle Tom's Cabin.
Third Term: Irving's Sketch Book.
Fourth Term: Longfellow's Evangeline.

FOR FRESHMEN.

First Term: Gods and Heroes, by R. E. Francillon. Second Term: Dickens' David Copperfield.

Third Term: Ruskin's Sesame and Lilies.
Fourth Term: Arnold's Sohrab and Rustum.

FOR SOPHOMORES.

First Term: Addison's De Coverley Papers.

Second Term: Scott's Ivanhoe.

Third Term: Selected Essays from Macaulay. Fourth Term: Shakespeare's Julius Caesar.

FOR JUNIORS.

First Term: Selections from Wordsworth.

Second Term: George Eliot's Silas Marner.

Third Term: Webster's Bunker Hill Oration.

Fourth Term: Shakespeare's Merchant of Venice.

Commercial Department.

Prof. F. A. BERNSTORF, Principal.

In this department special facilities are offered for gaining a thorough practical knowledge of commercial affairs by combining actual business practice with theory. The controlling principle is not in how short a time a student may be graduated, but how thoroughly he may be prepared for the business profession. Students, therefore, having had but limited opportunities to master the elementary branches are advised to take the studies of the General Preparatory Course in addition to the required studies of the Business Course. This may be done without additional charges.

Methods.

The most practical methods of presenting the subject of book-keeping are used, in which the business transaction is made the starting point instead of the ledger account. The student transacts all business in his own name, uses current dates, makes out, issues, and receives all classes of commercial paper in a business way, handles college currency and merchandise and besides makes the necessary records in his books.

Individual Instruction.

The student does all of his work in bookkeeping in the schoolroom under the supervision of the teacher, who gives him individual instruction whenever necessary. No one is kept back to stay with a class, which is the case in many schools. Each one, therefore is independent of others and advances according to his ability of mastering the work before him. Some class-work however, is done at times, in which the more important topics of bookkeeping are discussed. This gives the student a thorough drill in the theory of accounts.

Time to Enter.

Students may enter at any time during the school-year, but, if possible, it would be better for all those wishing to take the full course to enter at the opening of school in September.

Studies.

The studies required in the course and which are necessary to receive a diploma, are: Bookkeeping, Actual Business Practice, Commercial Law, Arithmetic, Spelling, Business Penmanship, Business Letter Writing, Business Forms, and Rapid Calculations.

The minimum grade required in each branch is 85 per cent.

Actual Business.

We teach actual business, using the same method that is used in the best business colleges.

While engaged in Actual Business Practice, the student carries on a real business. He buys from his fellow students, sells to them, receives college currency and pays it out, keeps a bank account, has dealings with wholesale houses, a freight office and other offices besides these. In addition to this work in the school room, the student has dealings with students of other colleges thus enabling him to do business by correspondence and to see the grade of work done in other schools.

This causes the student to take an actual personal interest in his work, and as a result is a delighted and interested worker from start to finish.

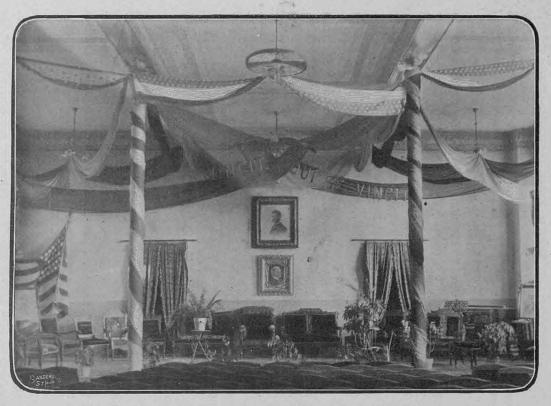

Short-hand and Type-writing.

The importance of Short-hand and Type-writing is realized more and more in all commercial pursuits.

Persons wishing to prepare themselves thoroughly for the duties of the business profession, will find it an advantage to be skilled in these subjects.

Tuition.

The charges for tuition for a term of ten weeks is, for the Business Course \$12.00, for Short-hand and Type-writing \$10.00. Scholarships are also sold. The price for a scholarship for the Business Course is \$35.00, for the Short-hand Course \$30.00. These scholarships are not transferable nor redeemable except by death in the early part of the course.

Kessler Hall Rostrum with "Junior Ex." Decorations.

Conservatory of Music.

Prof. J. C. EISENBERG, Director.

GENERAL REMARKS.

Since last year, the Conservatory is under the directorship of a specialist from St. Louis, who completed his musical education under the best masters in Europe. The department is showing a gratifying enthusiasm for work, ambition for higher grades and for more artistic performance. No labor is spared to have thorough work done. All pupils not under the instruction of the director, play before him once in two weeks, thus receiving the advantage of his advice. Class lessons (two in each class) are given according to the usual conservatory method as well as private lessons.

The Conservatory is to music what the college is to a literary and scientific education. As no one now would think of educating his children exclusively by private instruction, so it is no longer expected that any one will reach any degree of excellence in music who takes private lessons only. The number of students all bent on the same subject, the friendly rivalry springing from it, the regularity with which lessons are given, the special advantages of hearing the best musicians, the opportunity of playing together with others of the same grade, and of performing in public, in fact, the whole surroundings of the Conservatory are favorable to learning. Besides these special advantages for learning, the cheapness, as compared with private instruction, if it should be given in all branches required of a competent musician, is an important consideration.

The branches taught are Piano, Voice, Organ (reed and pedal), Violin and other orchestral instruments, as well as Theory, Sight-Singing, etc. The time needed to complete a course will depend on the ability and industry of the pupil.

THEORY.

The theory of music, embracing Harmony, Counterpoint and Musical Forms, is taught in classes. What grammar, rhetoric, and the study of literature are to language, these branches are to music.

CHORUS AND SIGHT-SINGING.

A class in Chorus and Sight-Singing meets twice a week, and is open to all who wish to become proficient along these lines.

ORCHESTRAL PRACTICE.

Those who are competent players on any orchestral instrument are given opportunity for practice in the College Orchestra, which meets weekly and furnishes a part of the music in the amateur concerts.

COURSES

PIANO.

First Grade: Knowledge of rudiments, lessons in technic and a study of scales, together with works by Gurlitt, Koehler, Duvernoy, etc. Easy melody pieces.

Second Grade: Further work in technic, scales and arpeggios. Works by Koehler, Loeschhorn, Clementi and others. Sona-

tinas and pieces for interpretation. '

Third Grade: Technic continued, scales, arpeggios, and chords in their varied forms. Works by Bertini, Krause, Bach, Heller and others. Sonatas of Mozart, Haydn, Clementi and smaller works of Beethoven together with works by modern composers.

Fourth Grade: Technic continued, scales, arpeggios, thirds, sixths and octaves. Studies of Bach, Czerny's Op. 740 etc. Works

of Beethoven, Chopin, Schumann and other masters.

Fifth Grade: Czerny continued, Lighter Chopin Etudes and further study of Bach, Beethoven, Chopin, Schumann, Schubert, Liszt and modern masters. In each grade it is expected that a certain number of pieces be memorized for public recitation

THEORY.

Course in Harmony. Course in Counterpoint. Course in Composition.

Course in Canon and Fugue.

VOCAL.

First Grade: Arthur's Voice Training, Franz Abt Tutor, Concone "50 Vocalises." Easy songs.

Second Grade: Concone "25 and 15 Vocalises," Vaccai, Viardot

"An Hour of Study." Songs.

Third Grade: "Masterpieces of Vocalization," edited by Max Spicker, Book I. Bordogni, Luetgen "Kehlfertigkeit" Book I. Songs and Ballads.

Fourth Grade: "Masterpieces of Vocalization" Book II., Luetgen "Kehlfertigkeit" Book II. Classic Songs.

Fifth Grade: "Masterpieces of Vocalization" Books III. and IV., Mazzoni, Sieber "Schule der Geläufigkeit." Selections from Oratorios and Operas.

VIOLIN.

First Grade: Schubert's Violin School, Vol. I. Weiss' Etudes, Vol. I. Easy selections for Violin and Piano.

Second Grade Schubert's Violin School, Vol. II. Kayser's Etudes, Op. 20, Vol. II. Selections for Violin and Piano continued.

Third Grade: Schubert's Violin School, Vol. III. Weiss' Etudes, Vol. II. Selections from classic and modern composers.

Fourth Grade: Schubert's Violin School, Vol. III., continued Weiss' Etudes, Vol. III. Sonatas and other selections from

classic and modern composers.

Fifth Grade: Schubert's Violin School, Vol. VI. Kreutzer's Etudes. Sonatas and other selections from classic and modern composers. (Continued).

Sixth Grade: Schubert's Violin School, Vol. IV. (Continued).

'Kreutzer's Etudes (continued). Sonatas and other selections from classic and modern composers. (Continued).

A Diploma is not granted unless the student has a good grammar school education.

CONCERT SERIES.

It has been the object of the director to make the concerts educational as well as entertaining, he has striven to give the pupils an opportunity to hear the master composers for the piano, voice, and violin, interpreted by artists in each line of work. This gives the student at once a knowledge of how these masters are to be treated and the ideal to be reached.

During the year five recitals were given. Three were artists concerts and two were furnished by pupils of our school.

Among artists who appeared in our series were E. R. Kroeger, Piano; Joseph Kern, Cello; Eleonor Stark, Piano; Edith Walzer, Soprano. We make it a point to study and perform some important choral work during the year. For this season Mendelssohn's 42nd Psalm was chosen.

GRADUATING RECITALS.

Each graduate is required to give a recital consisting of standard classics before a diploma will be issued.

It is necessary that each applicant for graduation shall have committed and shall be able to play acceptably from memory at least fifteen standard selections.

Summer School.

FACULTY.

GEO. B. ADDICKS, A. B., A. M., President.

Hy. Vosholl, A. B., A. M., Director and Professor of English. J. H. Frick, A. B., A. M., Professor of Mathematics.

C. L. Wellemeyer, A. B., Professor of History.

A. W. Ebeling, A. B., A. M., Professor of Sciences.

OTHER TEACHERS will be employed according to the demands of the students.

Approved.

Our Summer School has been duly approved by State. Grades are accepted by the State Superintendent and County Board of Education the same as in State University and Normal Summer Schools.

Subjects Taught.

Four departments are maintained, namely Mathematics, English, History, and Science. Besides these subjects, common branches will be taught and opportunity offered to accomplish courses for which they will secure credit upon the college books.

Grades Given.

According to the new school law grades will be accepted by the State Superintendent or County Board of Education in the following subjects:—

a. Algebra includes as much as is given in the first 298 pages of Milne's High School Algebra. b. Literature including as much is contained in "Introductory Lessons in English Literature" or the critical "College Entrance Requirements for 1901." c. History the equivalent of Meyer's Ancient; or his Mediæval and Modern; or Curtis U. S. and Foreign Powers; or the equivalent of any standard text in English History. d. Science, the equivalent of Tarr's Elementary Physical Geography; or Gage's Introduction to Physical Science, or the equivalent of any high school text on Zoology or Botany or "Lange's Hand-Book of Nature Study."

Grades are limited to two subject per term of Summer School, and can be given only when pupil has attended six-sevenths of the term.

Time of Opening.

The Summer School of 1901—1902 will open June 17, and continue for 7 weeks of 6 school days each.

Fee.

The tuition for the term is \$6.00, or \$1.00 a week if pupils do not attend the full term.

Boarding Department.

PROF. J. M. RINKEL, Superintendent.

The charges for board, light and fuel are included in the price for board, making the total expense as low as in institutions where the students board themselves in clubs. In the catalogues of such institutions generally the cost of board only is given, and nothing is said about the expenses for room rent, furniture, fuel, light, beds and bedding; and washing the latter. Students also avoid all the care, trouble, and inconveniences which pertain to a boarding club, and can devote their whole time to study. Securing supplies, cooks, kitchen furniture, fuel, etc., give them no care or anxiety whatever.

STUDENTS' HOME.

The College is in possession of large commodious buildings, containing private rooms for pupils, and hence a large number of students can have their rooms and get their meals at the institution, and so be entirely under the supervision of the Faculty and Officers of the school.—Each room is supplied with the necessary furniture, with the exception of one blanket and one pillow, which must be furnished by the student. The rooms are heated by Steam and lighted by Electricity.—Students are expected to take the room assigned them. Change of room can take place at any time by consent or request of Superintendent of Boarding Department. Students may room alone by paying an additional price. The Boarding Department and rooms for students are in close proximity to the College, requiring little or no exposure in winter, and surrounded by pleasant grounds and beautiful shade trees, making it delightful in warm weather.

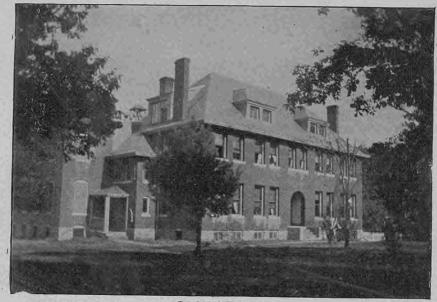

LADIES' HOME.

It is a large and commodious brick structure, heated by steam and lighted by electricity. It is beautifully situated, has nicely furnished rooms and offers to young ladies an agreeable and pleasant home. They are under the special care of a matron and it is therefore desirable to have, as nearly as possible, all boarding here.

For further information, regarding boarding and lodging, write to Prof. J. M. Rinkel, Warrenton, Mo.

CHANGE OF BOARDING PLACE.

All contemplated changes of boarding places by students rooming in the Ladies' Home, Eisenmayer Hall or elsewhere, must be reported to the President one week before the change is to be made.

Ladies' Home.

Students' Room in Ladies' Home.

EXPENSES.

Tuition and Incidentals are payable in advance by the Term.

Students discontinuing during a Term for good reason will be charged Tuition only according to the number of weeks in attendance.

Board, (Furnished Rooms in Ladies' Home,	2 in	
a room, Light and Fuel included)	2.	75—3.00
Private Families per week	2.	50 - 3.50

DEPOSIT OF MONEY.

Money can be deposited with the President for safe-keeping. Parents will do well to note this fact. For many reasons, it is not good for young persons to have control of large sums of money. The consequences are generally evil.

DISCIPLINE.

The discipline of the school is mild and in accordance with moral and Christian principles. Unnecessary strictness and severity will be avoided. In cases were pupils refuse to be governed by mild means and admonitions, warnings and reprimands are disregarded, suspension, dismissal, or expulsion will be resorted to, in order to preserve the good name of the school, and to prevent others from being injured by their bad example.

We can assure parents and children, pastors and societies, that we earnestly seek the good of those entrusted to our care, and that the results of our methods have been good and blessed of God.

Any further information in regard to the College or any of its departments will be gladly given. The correspondence of all interested parties is therefore earnestly solicited.

Seo. B. Addicks, President,
WARRENTON, MO.

1901.—CALENDAR.—1902.

FIRST SEMESTER, TWENTY WEEKS.

First Term, (ten weeks).

September 4, Wednesday Semester opens.
