## PREFACE

When members of the Yakima Valley Genealogical Society began abstracting records in the Yakima County Courthouse, in the winter of 1973, as an American Revolution Bicentennial project in keeping with the Society's program of making records of our heritage more easily available to genealogists and historians, publication of the abstracts in the Society Bulletin was planned. However, it soon became apparent that the abstracts would be too bulky to publish in the Bulletin within a reasonable period of time. Therefore, the Society decided to publish the Yakima County Records in a series of separate volumes. Also, because most of Benton County was a part of Yakima County during the period under study, it was decided to include Benton County records in the volumes to be published so that the records of individuals who had been residents of both Yakima County and the newer Benton County would be in one place.

To underwrite the expense of publication the Society took various actions. In addition to budgeting some of its regular income for records publication, members of the Society undertook special money raising projects. Miss Dorothy Prior, who several years ago generously gave the Society money to establish a publications fund, agreed this project should be the beneficiary of that donation and to make further contribution to our publication expenses. Finally, the Society applied to the Washington State American Revolution Bicentennial Commission for a grant to match somewhat less than one-half of the records publication budget.

On October 26, 1974, the Washington State American Revolution Bicentennial Commission made a grant to the Society of \$450 to assist in the publication of these Yakima County and Benton County records, for which we express our sincere appreciation.

The Yakima Valley Genealogical Society members and especially its President, Mrs. Cyril W. Davis, and its American Revolution Bicentennial Committee, Miss Dorothy Prior, Chairman, realize that publication of these records would not be possible without the assistance of many people. Thanks for their cooperation go to the Yakima and Benton County Auditors and Clerks for providing a place to work on the records in their custody and to their staffs, past and present, for providing good records with which to work.

Our thanks also go to the members of the Yakima Valley Genealogical Society who, through their dues and support of special projects provided substantial financial backing for the project and to Miss Dorothy Prior for her special gifts. Special appreciation is given to the following, who spent many hours abstracting records in the courthouses and in making the indexes for these volumes:

## INTRODUCTION

The Yakima County Cemetery, records now being on microfilm and available to everyone through inter-library loan from the Washington State Library, some members of the Yakima Valley Genealogical Society decided to work in the courthouse during the winter of 1973-74. Records were sought which would supplement our cemetery records through the year 1907, when registration of births and deaths was centralized in the Washington State Department of Health at Olympia. Four principal groups of records were abstracted--the birth, marriage and death records in the office of the County Auditor and the probate records in the office of the County Clerk. In addition, the few naturalization records held by the County Clerk were abstracted.

While the records in the Yakima County Courthouse were being abstracted, it became apparent that very little work would be required to provide similar abstracts for the records of the Benton County Courthouse, that county having been established only two years before the end of the period we had elected to study. Therefore, the birth and marriage records (there were no deaths recorded before the spring of 1907) in the office of the Benton County Auditor and the probate records in the office of the Benton County Clerk were abstracted. The result is that abstracts of birth, marriage, death and probate records and of some naturalization proceedings (incomplete as such records were not uncovered in the Benton County Courthouse) through 1907 are available for most of the residents of the area that became Benton County. The only data missing is that for the relatively few residents of the southern one-fourth of Benton County, that area having been the eastern tip of Klickitat County.

To understand what may be expected from these abstracts, a brief outline of the history of Yakima and Benton County and their record keeping is essential.

### Records in the Courthouse of Yakima County, Washington

When the first missionaries settled in the Yakima Valley, about 1850, it was part of Clarke County, a gigantic county encompassing most of the present State of Washington as well as land further east. On April 25, 1854, Walla Walla County was formed and assumed jurisdiction over the Yakima area. When Klickitat County was formed Dec. 20, 1859, some of the land now in Yakima County was given to the new county. When Yakima County was divided off from Walla Walla County on Jan. 1, 1865, its northern boundaries were much as they are now, but on Jan. 31, 1867 they were extended northward to the Wenatchee River, taking in all of the present Kittitas County and the southern part of Chelan County, these additions coming from Stevens County. Between 1868 and 1873, various shifts of boundaries between Yakima and Klickitat Counties occurred, but no major division of Yakima County occurred until Nov. 24, 1883, when Kittitas County was formed (including in its boundaries that land further north that is now in Chelan County). The final major change in Yakima County boundaries came on Mar. 3, 1905, when Benton County was formed.

Since registration of births and deaths began in Yakima County in May 1891, the boundary changes noted above have little effect on the location of these records except for residents of the southeastern portion of Yakima County that was cut off to Benton County. The naturalization records date from Sept. 2, 1882 and the same conditions apply to them as to the birth and death records, except that a few may concern residents of what are now Kittitas and Chelan Counties.

The boundary changes that occurred in Yakima County's history have more effect on what may be found in its marriage records and probate records. The earliest

marriage record in existence is dated Nov. 25, 1877, the earlier records having been lost in the courthouse fire of 1880. The marriage records prior to Nov. 1883 concern a considerable number of residents of the present Kittitas County and prior to Mar. 3, 1905 many residents of the southeastern part of Yakima County that now lies in Benton County. Also, since a marriage license is valid anywhere in the state, some licenses recorded in Yakima County were used elsewhere.

In the case of probates, we have been unable to find out where any estates may have been probated prior to Sept. 28, 1869 when the first entry was made in Probate Docket Book A. Probates before 1865 should be in Walla Walla County, which has probate records from 1860. Noting that the first probate records for Walla Walla County appear about five years after formation of the county, we suspect that if there were any estates subject to probate before 1869, they may have been probated in Walla Walla County. It may also be that the earliest probate records were lost in some general court journal during the courthouse fire of 1880, in which Probate Docket Books A and B were among the very few records saved.

#### Records in the Courthouse of Benton County, Washington

Benton County was established Mar. 3, 1905 by running a line due south from the Columbia River along the boundary between range 23 and range 24 east, Willamette Meridian, until said line again intersected the Columbia River. The land east of said line, lying in the bend of the Columbia River, became Benton County, the bulk coming from Yakima County with a small tip of the eastern end of Klickitat County being included in the new county.

The effect of the establishment of Benton County on the records of its past residents is important. Prior to Mar. 3, 1905, records for most if its residents should be found in Yakima County with those for residents of about its southern one-quarter being in Klickitat County. However, the distance residents of the future Benton County had to travel to the courthouse at Yakima or Goldendale seems to have influenced what may appear in the records of either courthouse. It appears that residents of the Benton County area did not report as high a percentage of births or deaths as did those in other parts of Yakima County, this practice being carried on after formation of the county, only 38 births and no deaths being recorded between Mar. 3, 1905 and April, 1907. It also appears that some residents of the Benton County area secured marriage licenses elsewhere, especially those in the Kennewick area who were very close to the Franklin County Courthouse, at Pasco. Newspaper and other sources also indicate that residents of the southern part of the Benton County area often went across the river into Oregon to be married rather than travel to Yakima or Goldendale for marriage licenses prior to Mar. 3, 1905.

In the case of legal proceedings, including probates, those who lived in the Benton County area prior to Mar. 3, 1905 did, naturally, have to use the courthouse of the county having jurisdiction over the part of the area in which they lived. When Benton County was formed, its courthouse took over jurisdiction of such affairs. In the case of probates, cases which were not concluded were transferred to the Benton County Probate Court and the first Probate Court Journals and Will Books include copies of all such proceedings transferred to the new court from Yakima and Klickitat Counties. Records of guardianships that were still active and of past probates of estates which involved title to land within Benton County were also transferred to the new County. Whether any naturalization proceedings were similarly transferred could not be determined, since we did not discover any naturalization records during our work in Benton County, though some records for 1905-07 may exist.

## Condition of Records

The condition of the records in the Yakima County Courthouse, at Yakima, Wash., and in the Benton County Courthouse, at Prosser, Wash., is excellent. The only problem is the usual one of inconsistency of spelling of people's names, which arises from two causes. First, all the records we used were in volumes which had been prepared by copying records into them. Secondly, the style of handwriting common during the period these records were made leads to difficulty in transcribing names accurately. In the case of birth and death records, only one record for each was available. In abstracting these records, the alternative spellings are shown, but we decided it was unwise to insert what we think some of the names really were, even when it might bring members of a family together, after we found some of our assumptions might be wrong. In the case of marriage and probate records, there were two or more sources for the majority of the records. Few discrepancies in the spelling of names during a probate occurred. However, in the marriage records, names were frequently spelled differently in the Marriage Register and the Marriage Certificate. The increase of name variants in the marriage records had two causes. The first was the handwriting used in preparing the volumes. The second, and more important cause was the fact that those who made the entries into the volumes for the two types of marriage records either had difficulty reading the original documents or found inconsistencies in the spelling of names in the basic documents. The greatest variation in the spelling of names naturally occurred in those of foreign origin, especially in Germanic, French, Dutch and Slavic names, but many variations appear to be due to handwriting, especially the poor formation of the following letters, grouped as they caused confusion:

|                    |            |         |         |                   |            |      |
|--------------------|------------|---------|---------|-------------------|------------|------|
| A, O, C            | F, L, T, S | D, O, G | I, J, L | L, S              | M, N, V, W | X, Z |
| E, G               | K, P, R    | a, o, u | ei, ie  | h, k              | m, n, u, v |      |
| c, e, s            | g, y, j    | r, v, w | rn, m   | e, i (not dotted) |            |      |
| l, t (not crossed) | dt, tt     | sch, sh | oy, ry  |                   |            |      |

All variations in the spelling of names which were found are included in the text of our abstracts. In the Birth Records and Death Records, we included some cross-references where the spelling of the father's surname indicated that the spelling of the child's or decedent's name probably was wrong. However, it was not possible to cross-reference all the records that may possibly apply to one family group, since, in the case of a mother's name we had no basis for cross-referencing. The Marriage Records were so extensive that cross-referencing within the body of the text was impossible.

In the Surname Index, in each volume of our records, every spelling variant of a surname appearing in the text is shown. We recommend that anyone who does not find the record they seek in the place they expect, study the Surname Index carefully, checking all bearing surnames having the vaguest phonetic connection to the surname in which they are interested.

Anyone writing for certified copies of records listed in these abstracts should be sure to show any variations in names shown in the abstracts, for the record may be indexed under either form of the name. Also, to secure a complete marriage record, the request should include the fact that information from both the Marriage Certificate and the Marriage Register is desired.

MARRIAGE RECORDS, YAKIMA COUNTY, WASH.

In Washington State, marriage records are kept in each county, even today, but as a companion to our volumes of birth and death records, these records extend only through 1907. The earliest marriage record on file in Yakima County is dated Nov. 25, 1877, the earlier records having been lost in the courthouse fire of 1880. Between 1877 and 1891, two volumes, in which the returns made by officials who performed marriages were copied, exist. Applications for licenses for these marriages were recorded in a book of Marriage Affidavits. Beginning in 1891, all marriages supposedly were listed in a Marriage Register, compiled from Marriage Applications and Certificates of Marriage, and all Marriage Certificates were supposedly copied into volumes labelled Marriage Certificates. All these volumes were used in abstracting these Yakima County Marriage Records. In a number of cases, after 1891, a marriage record only appeared in one source, probably sometimes because the license was obtained in another county and sometimes due to clerical error. A few Marriage Certificates were found to have been entered out of chronological order.

We don't know how to find out about marriages prior to Nov. 25, 1877. Some of the earliest may have been recorded in Klickitat County and be listed in Ballou's history of that county, which was written before the Klickitat County Courthouse fire. The Catholic Diocese has some records from 1852, but we know of no other church records dating before 1877.

The marriage records give the name of the bride and groom, date and place of marriage, name and title of the officiating officer, and names of witnesses. Before 1891, the residence of the bride and groom was seldom shown. After 1891, the records additionally may show age, birthplace, parents and place of residence of the bride and groom and note whether either had been previously married. The original records may be seen in person or obtained by writing to the County Auditor, Yakima County Courthouse, Yakima, Wash., 98901 (a fee of \$2.00 per marriage record being required for written replies).

In these abstracts, the data on age, birthplace, parents, residence (when out of county or in a specific area of the county), and previous marriages is enclosed in [ ]'s after the name of the bride or groom. The title of the official performing a marriage is noted: MG for Minister, JP for Justice of the Peace, and JPC for Judge of the Probate Court. An index of such officials, showing the sphere of their activities, is provided. The records are arranged alphabetically by name of the groom, a Brides Index preceeding the general Surname Index to facilitate location of records of brides.

The Yakima County Marriage records are in good condition, but the existence of two sources for the majority of the marriages, pointed out the problems handwriting and/or unusual names present. During this project, we recopied the records from Nov. 25, 1877 to Aug. 19, 1888 which were published in the Yakima Valley Genealogical Society Bulletin, Vol. 1, No. 3 thru Vol. 2, No. 3, eliminating many questions about transcription of names. In printing our abstracts, the spelling of the bride's or groom's name appearing on the Marriage Certificate was almost always chosen as the preferred form, the alternate form being placed in ( )'s. Alternative spellings supplied when we questioned how to read handwriting have a "?" in the ( )'s. We believe these marriage records are quite complete, even between 1877 and 1891. However, since return of reports by ministers and justices of the peace was at fairly long intervals in the early days, some records may be missing, especially of marriages performed by itinerant ministers.

## MARRIAGE RECORDS, BENTON COUNTY, WASH.

Immediately upon formation of Benton County, Mar. 3, 1905, the county began issuing marriage licenses. Although the Benton County records contained few birth records and no death records for the years 1905 thru 1907, the period of our study, there were a substantial number of marriage records. Only the Benton County Marriage Register was available to us.

The problem of where to locate marriage records for many residents of Benton County is complicated. Prior to 1905, most of those living in the portion of the county which came from Yakima County obtained licenses in Yakima County except for those living in the Kennewick area. Despite the substantial population in the Kennewick area, few marriage records for its residents appear in the Yakima County records, mostly because of the great distance to the county courthouse. Instead, Kennewick area residents went to the nearby Franklin County Courthouse at Pasco, so that, even if they were married in the Kennewick area, the marriage certificate was returned to Franklin County. Establishment of a courthouse at Prosser, some 50 miles closer, probably increased use of it for marriage licenses by Kennewick area residents, but many probably continued to go to Pasco, since a marriage license is valid for a marriage ceremony performed anywhere in the state. Unfortunately, the Benton County Marriage Register did not list the site of most marriages or note the place of residence within the county of the bride or groom.

Where marriage records for residents of the southern portion of Benton County which came from Klickitat County are is generally unknown to us, for we were unable to examine the Klickitat County records to determine whether they contain most of the records for these residents. We believe, however, that due to the distance to Goldendale, few residents of this southern portion of Benton county journeyed to Goldendale for licenses prior to 1905. Many probably got their marriage licenses in Franklin County and we know, from newspaper reports, that some found it easiest to go across the Columbia River to Oregon to be married, sometimes even after the formation of Benton County.

The Benton County marriage records are in good condition and, due to the lack of copies of marriage certificates for comparison, few variants of names were found. The variants that are found mostly fall into the category of spellings we questioned and are indicated by a "?" following the variant, which is in ( )'s. The same format was used in presenting the data about each marriage which was used in the records for Yakima County.

## BRIDES INDEX

In Yakima and Benton County Marriage Indexes, brides are listed only under one surname--their maiden surname if not previously married and their latest husband's surname if previously married. In this index, any bride who was previously married is listed both under the surname of her previous husband and under her maiden surname and any other surnames from other husbands; when such names are known.

## OFFICIALS WHO PERFORMED MARRIAGES

Since the name of the minister who performed a marriage is chiefly useful in determining the religious affiliation of the parties to the marriage and thus lead to other sources of information about them and since inclusion of the denominational affiliation of ministers in the transcripts of marriage records would have been too repetitious, this data has been compiled into the following list. Also, since some marriage records do not state where the marriage occurred, the location of the activities of ministers or Justices of the Peace was compiled from records that state where a marriage occurred. In the case of some officials, variations in the spelling of their names or in their initials occurred, and have been shown.

Ministers Who Performed Marriages

In this list the minister's name is followed by the denomination of the church at which he served, if known, and then by the towns where he performed marriages. The common abbreviations for well known churches such as : R.C.--Roman Catholic; Presb.--Presbyterian; Meth.--Methodist, etc. have been used to save space.
