NEWS OF THE SOCIETY

Election of officers for 1970-71 and approval of revision of the TCGS Constitution and By-Laws took place at the May meeting of the society. Current reorganizations among Hanford and Atomic Energy contractors made it impossible for anyone to accept the office of president at the moment. The board of directors will manage the affairs of the society until conditions settle. Those elected are:

Vice-president--Herbert L. Tedro
Recording secretary--Katherine Woolcutt
Corresponding secretary--Margaret Rice
Treasurer--Evelyn Massie
Board of Directors--Lyle Perrigo
Dale Denham
Lucille Shaffstall

Pat Ballowe accepted the position of librarian.

Herbert N. Pedersen, chief librarian of the Tri-Cities Branch library of the Genealogical Society of the Church of Jesus Christ of Latter Day Saints, was guest speaker. He explained the belief of his church that the family is an eternal and basic unit, continuing after this life, and described the extensive record-keeping system his church requires. Among the records are more than 38 million 3 x 5 cards in the Temple Index Bureau (TIB), now open for search, even to non-members, through the use of forms available in branch libraries. More than two thousand forms are used every three months in the branch in Richland alone.

The Mormon society considers its first task the gathering of genealogical records of the whole world and making them available. More than 800,000 rolls of microfilm have been collected as part of this project. Eighty microfilm teams are at work throughout the world. The owner of the record receives one copy, another goes into a vault for permanent storage, and the third is used for making duplicates which can be rented through the branch libraries, 87 of which are already in operation.

Mr. Pedersen outlined plans for the future, which range from the desire to have enough microfilm readers so that no one will be kept waiting, to a projected library building on the church property at Sunset and Thayer, Richland. He hopes that the branch can eventually acquire all available U. S. Census film on "indefinite loan," and wants to inaugurate better map service. The church has started a campaign among its members for the donation of unused genealogical books and other materials.

He listed some of the little-known indexes available through the branch library, including ship passenger lists, a Norwegian census, a Canadian census, and Boyd's Marriage Index of England. The last includes about eight million names and is on 172 rolls of microfilm. The branch library is open from 10 a.m. to 5 p.m. Monday through Friday, from 7 p.m. to 10 p.m. Tuesday through Friday, and on Saturday by request.

CHANGE IN EXCHANGE RULES

Because of the new policy of putting exchange publications into bound volumes, it was voted at the May meeting of the TCGS to discontinue circulation of exchanges. Hereafter, they will be displayed at meetings, where members may take notes, and then put into loose-leaf binders at the LDS Branch Library in Richland. As enough issues accumulate, they will be taken to a printer to be stitched, bound, and trimmed. A list of the back issues already bound appears elsewhere in this issue.

A re-instated feature of this BULLETIN, "From Our Exchanges," is intended to give members excerpts from interesting articles and refer them to useful material.

-- PEDIGREE CHARTS --

Charts in this department are those of members and their spouses. Numbering is that used on most commercial pedigree charts. The person submitting the chart is 1, his father is 2, his mother is 3, his paternal grandfather 4, etc. A person's father is always twice his own number, and his mother's number is his own, doubled, plus 1.

BOOK REVIEW -- The 1968 edition of the GENEALOGICAL PERIODICAL ANNUAL INDEX (volume 7), edited by George Ely Russell in Bowie, Maryland, has arrived and will be shelved in the LDS Branch Library. This year 133 different periodicals are indexed, including the TCGS BULLETIN. The index is simple to use. One of its chief attractions is the careful listing of information by geographical area, so that it is possible to look under, for instance, Jefferson County, Pennsylvania, and discover what was published about that county during 1968. It is unfortunate, but understandable, that there is a two-year delay in receiving these indexes. Among the references to the TCGS BULLETIN are those for the History of the Larsen Family, and cemetery records for the vicinity of Woodland, Cowlitz County, Washington. -- F.H.E.

FREE CATALOG OF OLD MAPS

"Facsimiles of Rare Historical Maps," a free catalog, is available from the Geography and Map Division of the Library of Congress, Washington, D.C. Printed in 1968, it lists map reproductions for sale throughout the world by various publishers and distributors. The listing is alphabetical by the name of the publisher, but there is a complete index by geographic location. The possibilities range from a modern pictorial map of Old Oregon Territory, distributed by the Oregon Historical Society for 25 cents, to a World Atlas of 1458 which can be ordered from Rome for only \$113.00. -- Harry H. Wrangham.
