FORWARD

In 1858 Robert Kennedy was the first permanent settler in Waitsburg, building a cabin at the junction of the Touchet and Coppei Rivers. An early attempt was made to start a town about five miles from the present site of Waitsburg, and in 1865, the town of Waitsburg was established.

The founder of Waitsburg was Sylvester M. Wait, who built a grist mill in the city to make wheat into flour. W. P. Bruce and Dennis Willard gave ten acres of ground for the mill and a right of way for the mill race. The mill later became known as the Preston Shaffer Mill and operated for 92 years until 1957, when it was absorbed by Centennial Mills.

The first school was opened in 1865 and the first post office in 1866. The census of 1870 gave a population of 109.

The year 1881 was notable in the history of Waitsburg, for in that year a city government was organized, the railroad was constructed and a tragic fire destroyed most of the city.

The first newspaper, the Waitsburg Times, was established in 1878, and has operated continuously as a weekly paper since that time. It is also the county newspaper. The first local telephone station was built in 1895 and the electric light plant installed in 1896.

The City still operates under its original territorial charter, levying and collecting its own taxes.

Both cemeteries of Waitsburg were recorded within this book. The records are complete through May, 1977. If the burial is in the I.O.O.F. Cemetery, it is marked with an astrisk (*). These burials were copied directly from the burial records in the Waitsburg City Hall. A few cards were found which recorded the name, year (or full date of birth) followed by 19--. These could indicate that the stone was prepared prior to the death of the person. If any such entries appear on these pages of persons still living, we offer our sincere apologies. But due to the apparent incompleteness of some of the records, it was difficult to avoid making some errors.
